Production Rates

Up To:

Waterbased Ink - 150 shirts/hr  
Plastisol Ink - 300 shirts/hr

This package features an energy efficient dryer capable of giving you constant quality production on a single pass, unlike other "eco-friendly" packages that will have you working twice as hard and consuming twice the energy. Start curing on the press with our air flash and increase the productivity on your dryer. Save even more energy by burning two 20" x 24" screens on our extra large exposure unit. Includes a starter kit of eco-friendly cleaning supplies.

Add a dip tank and filtration system to make your package completely eco-friendly!

**Upgrade Options**

**Large Diptank** Add: \$ 555.00  
For quick screen cleaning & reclaiming

**FLT1 Filtration System** Add: \$1,398.00  
Trap and filter ink and emulsion
